

QRHP-01

QRHP-03

Applications

- For preheating of a large volume of test samples
- For general heating applications, dissolving of chemicals or media, and etc
- For digestion of large volume of samples

Features

- Aluminium plates offer maximum heat transfer, strength and corrosion resistance
- Aluminium surfaces provide excellent temperature uniformity with no risk of breakage
- Large work surface
- Power and heater indicator light
- Digital temperature controller: Excellent temperature stability
- Control panel protected from spillage with special designed panel
- Control panel is connected to the hot plate's body externally. Non-direct contact of electrical parts extend the shelf-life of the equipment

Specification

Model	QRHP-01	QRHP-02	QRHP-03
Top plate material	Aluminium		
Body construction	Mild steel casing with baked enamel paint finishes		
Hot plate size (mm)	427W x 285D x 25H	610W x 457D x 8H	914W x 457D x 8H
Temperature working range	Ambient to 300°C	Ambient to 300°C	Ambient to 200°C
Temp. setting & display	Digital setting and display to 1°C		
Heater	2.0 KW	2.0 KW	3.0 KW
Overall dimensions (mm)	435W x 340D x 155H	610W x 457D x 165H	914W x 457D x 165H
Power supply	240VAC, 50Hz		415VAC, 50Hz
Weight	12 Kg	18 Kg	27 Kg
